

## El Salvador lithium portable power wholesale price

### Overview

Despite being the smallest country in Central America, El Salvador is one of the strongest proponents of renewable energy production in the region. This is part of the government's commitment to reduce emissions and to increase energy efficiency while utilizing the country's tropical. There is currently a limited amount of domestic investments on solar generation plants in El Salvador. However, there are plenty of global suppliers and distributors. The Port of Acajutla is the primary seaport in El Salvador that facilitates the handling and logistics of solar equipment and other goods (both import and export).
