

How many communication base station inverters are there in Mexico

Overview

In September 2018, the Office of the United States Trade Representative (USTR) initially set a 10 percent tariff on inverters and. Enphase's decision to move manufacturing to Mexico was the result of much more than U.S. import tariffs and the related uncertainty. The plant in Guadalajara, dubbed the Silicon Valley of Mexico, enabled Enphase to expand upon an existing. Enphase will continue to push the boundaries of solar technology, both home and abroad, through ongoing innovation and advancement of our products. We are proud to be the leading supplier of microinverters in the world and we are excited to continuing.
